Excluded Applications

Under DAP Regulations, development applications relating to the following classes of development are "excluded development applications". These applications will not be able to be determined by a DAP:

- Construction of a single house
- Construction of carports, shade sails, outbuildings or sheds
- Development in an improvement scheme area
- Development by a local government or the WAPC.

Example: If an application is received with a cost of development, exclusive of GST, valued at \$10 million, the associated fee of Item 1(c) \$9,411 applies. The application does not fall into the lower threshold of Item 1(b) as the estimated cost is not 'less than \$10 million'.

In determining the relevant opt-in or mandatory financial thresholds and associated DAP fee for an application the total estimated cost of development **excludes** any GST component.

DAP Fees in effect from 1 July 2018
