

RESPONSIBLE CAFÉS PROGRAM

The City supports the Responsible Cafés Program which aims to connect cafés to environmentally conscious consumers, and help reduce the waste generated by takeaway cups and lids. Participating cafés offer their customers a discount or incentive to bring their own reusable takeaway cups.

The City of Bunbury invites you to be a part of the Responsible Cafes Program. Organised by Responsible Runners, this growing movement Australia wide allows Cafes to reach environmentally conscious consumers and help reduce the waste generated by takeaway cups and lids.

How it works

Participating Cafés offer a discount (usually 30-50¢) or other incentive to customers with a reusable takeaway cup, promoting responsible decisions and sustainable practices.

The City of Bunbury will fund establishment fees of this initiative as part of our commitment to providing sustainability. There is no additional cost for business owners and if you already offer an incentive to customers you are still welcome to join us.

Participating Cafes will receive customised posters and certificate to display in their premises. We encourage participating Cafes to promote this through their own media, such as websites and Facebook/Instagram page.

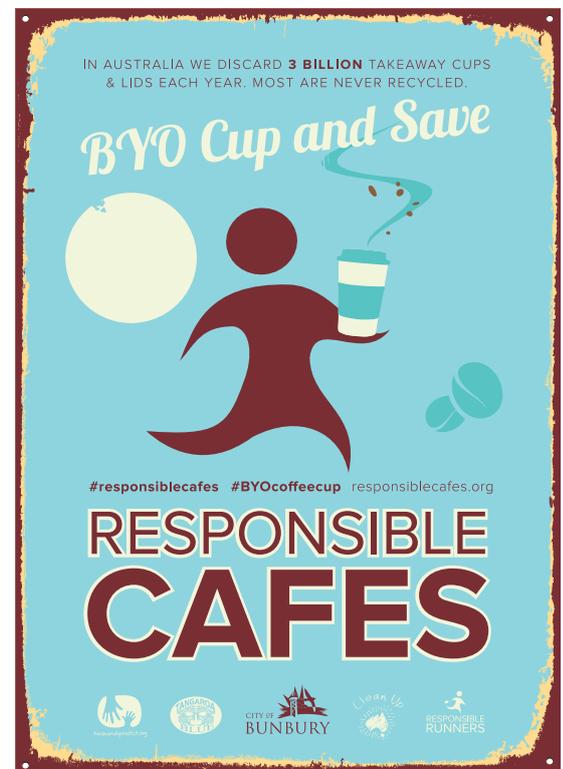

The City of Bunbury will offer the first 22 cafes that register 20 free medium sized keep cups for free (worth \$320 recommended retail)

The City of Bunbury and Responsible Runners will also help promote the program through various forms of print and digital media.

How to register

Please complete the table below with some information about your business and email to ckowal@bunbury.wa.gov.au

(You can copy and paste the below table into an email).

Café name	
Café address	
Contact name	
Email	
Website or Facebook
